

Powered Industrial Truck Train-the-Trainer

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 Why You Need This Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job (*Liberty Mutual Safety Index 2005*). This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training, and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers' compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This MIOSHA program involves a full day of safety training designed to address specific occupational safety and health hazards associated with operating powered industrial trucks. MIOSHA General Industry Safety Standard Part 21, Powered Industrial Trucks is extensively examined as well as relevant rules contained in other MIOSHA Standards. Topics include truck safe guards and devices, safe operating procedures, employee selection, training, and inspections. The information gained in this class will assist those who will be conducting Powered Industrial Truck training.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ An Overview of CET Services
- ▶ Part 21: Review of the Powered Industrial Truck Standard
- ▶ Top 10 Common Violations for Powered Industrial Truck
- ▶ Health Hazards Associated with Operating Powered Industrial Trucks
- ▶ Daily Checks Required by the Standard

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Facilitator

Micshall Patrick is currently an Occupational Safety Consultant with the Consultation Education and Training Division of MIOSHA. She has been with the Division for more than 17 years and currently provides consultation and training services for Kalamazoo, Kent, and Barry counties. During Micshall's tenure with CET, she has developed various safety training programs within the agency, including recordkeeping and powered industrial truck train the trainer.

Before working for the State of Michigan, Micshall was a personnel specialist with Kalamazoo County performing personnel functions and administering the county's workers' compensation program. She also chaired the County Safety Committee, which developed accident prevention programs for county employees. Micshall is a graduate of Kalamazoo College with a Bachelor's degree in Political Science.

Presenters: Micshall Patrick, Occupational Safety Consultant, and
Dave Humenick, Industrial Hygienist; MIOSHA-CET Division
